CITIZENSHIP: U. S.

DEGREES

Degree	University	Year
B.S.	Case Institute of Technology	1970
M.S.	Cornell University	1972
Ph.D	Cornell University	1975

IN THE PROFESSION

2018- Professor Emerita in Mathematics, Texas A&M University
2004-2017 Professor and Director of Honors Programs in Mathematics,
Texas A&M University
2001-2002 Research Biostatistician, University of California at Davis
1989- Professor of Mathematics, Texas A&M University
1994- Professor of Veterinary Integrative Biosciences,
Texas A&M University
1981-1989 Associate Professor, Texas A&M University
1987-1988 Associate Research Professor, Rutgers University
1984-1987 Associate Professor and Division Head, Texas A&M University
1980-1982 Faculty Fellow, Harvard University
1975-1981 Assistant Professor, Purdue University
1970-1975 TA & Lecturer, Cornell University

SOCIETY MEMBERSHIPS and OFFICES

Member, American Mathematical Society		
Joint Committee on Women in the Mathematical Sciences	AMS Rep.	1985-1991
	Chair	1988-1991
Member, Mathematical Association of America		
MAA Visiting Lecturer		1991-1995
MAA Dolciani Series Editorial Board		1997-2003
Committee on Participation of Women	skitwright	1988-1993
Committee on the Profession		2003-2009
Chair		2006-2009
Subcommittee on Early Career Development		2005-2009
Committee on Science Policy, <i>ex officio</i>		2006-2009
Committee on Science Policy		2009-2012
Joint Data Committee		2009-2015
Strategic Planning Committee on Meetings		2007-2010
Joint Committee on Employment Opportunities		2009-2015
Member, Association of Women in Mathematics		
Clerk of the AWM		10/99-2/01
Executive Committee Member, Association of Women in Mathematics		1989-1991
Member, American Statistical Association		
Member, International Society for Computational Biology

Texas A&M University Honors Program mini-grant; \$2000
Summer 2007

NSA Contract December 1994- August 1997

NSA Contract June 1992 - October 1994

NSA Contract June 1990 - May 1992

NSF Visiting Professorship for Women Rutgers University
June 1987 - June 1988

NSF Contract December 1985 - May 1987

NSF Contract June 1982 - Nov. 1984

NSF Contract July 1977 - May 1979

Faculty Fellow, The Bunting Institute Radcliffe College/Harvard University
July 1980 - June 1982

Purdue University XL Grant 1976, 1977

AWARDS:

2023 AWM Fellow	2023
First annual AWM speaker and honored guest, Baylor University	20 April, 2017.
The Sue Geller Undergraduate Lecture Series was named in the Dept. of Mathematics at Texas A&M University	2017
Texas A&M University Distinguished Service Award in Individual Student Relationships	2015
MAA, TX Section, Ron Barnes Distinguished Service to Students Award	2014
Women's Faculty Network Mentoring Award	2014
Honors and Undergraduate Research Director's Award	2012
Department of Mathematics Outstanding Teaching Award	2008
Department of Mathematics Outstanding Teaching Award	1998
Department of Mathematics Outstanding Service Award	1996

TEACHING

At Purdue

Graduate

- Advanced Linear Algebra
- Abstract Algebra
- Complex Variables

Undergraduate

- Calculus
- Differential Equations
- Abstract Algebra
- Linear Algebra

At TAMU

Graduate

- Methods of Applied Mathematics (for Engineers)
- History of Mathematics (a distance course)
- Commutative Ring Theory
- Group Theory

Linear Algebra for Applications
 A Survey of Mathematical Problems I (local and distance)
 A Survey of Mathematical Problems II (local and distance)
 Abstract Algebra I
 Abstract Algebra II
 Seminar in Algebra – Error Correcting Codes
 Seminar in Algebra - An MS level Abstract Algebra Class for the distance program
 Independent Study (4 different courses, some local, some distance)
 Dissertation Research
 Algebra class in a Summer Bridge Program for incoming US graduate students

Undergraduate

College Algebra
 Calculus (for 3 different clientele)
 Finite Mathematics
 Contemporary Mathematics I
 Contemporary Mathematics II
 Transition to Higher Mathematics (220)
 Linear Algebra – first course for Mathematics Majors
 Introduction to Discrete Mathematics (for Engineers)
 Linear Algebra for Engineers
 Differential Equations
 Introduction to Mathematical Structures – for pre-service Middle School
 Mathematics Specialists
 Intermediate Modern Algebra – for Secondary pre-service teachers
 for whom math is their second teaching field
 Communications in Mathematics
 Modern Algebra I
 Modern Algebra II
 Applied Linear Algebra
 Applied Modern Algebra
 Combinatorics - senior level
 Independent Study (many different subjects plus for internships)

Course Development

A Survey of Math Problems I and II (Math 645-646) with Harold Boas:

This is a year long course required for the MS in Mathematics, teaching option, but appropriate as a transition course for entering MS students. In Fall, 2000, I taught a Texas Television Network section of this course to people in San Antonio.

Introduction to Mathematical Systems (Math 368)

I redesigned Math 368, the last required mathematics course for math specialists in grades 4-8, in Fall, 2003 and in Fall, 2012.

Communications in Mathematics (Math 396)

I designed a one credit hour course to meet the University requirement for a communications course in the major, then obtained University approval for it to be a C course. I've taught the class many times.

Abstract Algebra for Masters' Level Students

This course is designed for our distance MS students and assumes that they have seen some abstract algebra or at least taken A Survey of Math Problems I and II so that they have some proving skills. I hope to offer a slightly different version for on-campus MS students or Ph.D. students with weak enough algebra skills to need more work before taking the Ph.D. level (qualifying level) algebra class. I have designed and offered as an independent study course a second semester to complete an MS level of the Ph.D. level Abstract Algebra.

Program Design

In Fall 2016, I designed, received permission from the Associate Dean for Undergraduate Affairs, and supervised the mentor in a new way to fulfill a requirement for Regents' Scholars, namely, requiring the students to meet with the mentor 30 minutes every week as part of their scholarship requirement. The mentor tutored them in math as needed as well as help them transition to college. These students are all first generation students with high economic need. We usually have 30% on probation or dropped (GPA less than 2.0) and the lowest GPA this fall was 2.466 with many over 3.0.

This idea is being used Fall 2017 at the University level for Regents Scholars from departments without their own programs. Math graduate students were hired as the tutors.

In the College of Science, this idea is being used Fall 2017 for all incoming Freshman at risk with faculty as mentors but not requiring attendance.

At the University level, all Regents Scholars not in departmental or college programs are being tutored in math by math graduate students for the 2017-2018 academic year.

Graduate Students

MS Committee Chair: 116 graduated non-thesis in mathematics

1 (thesis) in Epidemiology (as co-chair),

1 (thesis) in Veterinary Integrative Biosciences

Ph.D. Committee Co-Chair: 2 (1 in mathematics and one in math education)
