

If you wish to take my class, but cannot register due to the following reasons:

- The class is full.
- You are not a Computer Science or Computer Engineering (CSCE) student.

You need to add yourself to the force list by following the instructions at:

<https://engineering.tamu.edu/cse/advising/force-request.html>

Notes:

- You may need to be on TAMU campus or on TAMU VPN in order to perform the above operation.
- Some students reported technical problems with the above website. If that is the case, please talk to CSE IT at Peterson.
- The force list is controlled by the CSE Department Administration, not the instructor. Thus, emailing the instructor usually would not help.
- Please read this document before sending emails.
